
Developing an Operational Plan

National Competency Standard (BSB07):
BSBMGT515A Manage operational plan

Aim

This course covers the skills required to develop and monitor the implementation of the plan to provide efficient and effective workplace practices within the organisation's productivity and profitability plans.

Audience

The audience for this course is any individual or manager responsible for the development or implementation of the operational plan, including recruitment, budget and financial information.

Duration

One day.

Optional Assessment

This is a nationally recognised training program. Participants who successfully complete the optional assessment component of this course will receive a Statement of Attainment for the unit of competency outlined above. The assessment comprises a case study assignment designed to demonstrate competence. Participants who choose not to be assessed will receive a Certificate of Attendance.

The case study assignment is completed in the participant's own time.
