
Diploma of Information Technology (Systems Admin) ICA50305

Description

This qualification provides the skills and knowledge for an individual to be competent in the management and maintenance of systems as it includes high end development and integrative competencies and delivers the competence to effectively manage and maintain complex ICT systems.

Prerequisites

BSBCM106A Follow workplace safety procedures	ICAW2001A Work effectively in an IT environment
ICAU1128A Operate a personal computer	ICAW2002A Communicate in the workplace
ICAU2006A Operate computing packages	ICAU2013A Integrate commercial computing packages
ICAU2231A Use computer operating system	ICAU2005A Operate computer hardware
ICAD2012A Design organisational documents using computing packages	

Requirements

Participants must successfully complete 19 units of competency including 15 core units plus 4 elective units.

Duration

Two years full-time; four years part-time.

On-The-Job Training

Much of the training is delivered on-the-job through reading, interacting with colleagues & completing project work. You only need to attend off-the-job training if a competency cannot be acquired at the workplace.

Recognition of Current Competencies (RCC)

You may already have many of the skills required for this qualification. There is no need to be trained in things you can already do. NDA will assess current skills and give recognition for relevant competencies.

Units

8 Core Units
